My Experience

"I have been afflicted for many
years with Dyspepsia, Sick-Headache
and affection of the kidneys caused by
a Torpid Liver. During last Fall and
Winter I was obliged to suspend the
most of my labor in my field of Home
Missionary work, on account of my
health Early this Spring I was in-
duced to try Simmons Liver Regulator,
and have had more real good health
than for years before It relieves me
at once, and is more satisfactory than
anything of the kind I ever tried I
have also used it successfully to ward
off bilious attacks"—JOSEPH E.

### The Inquiry into the Disaster at Nanaimo.

### THE SITUATION AT ILWACO

More about the Gilliam County Murder—Proceedings of the State Grange—A Lecture on Evolution—Etc

NANAIMO May 2—The inquest opened Wed nesday and adjourned till to day The evidence of John Michael one of the six survivors is as fol lows Am sinker in No 2 shaft remember the evening of the [illegible] of May and about the time the explosion took place was then having supper be low ground off No 2 shaft As far as I can say the explosion sounded like a heavy fall of rock [illegible] the wind coming from it up the slope remember that when the volume of air struck me I exclaimed My God, boys What is coming on us now? I had no memory of the explosion after that I work prin cipally about the shaft was once down the slope [illegible] worked with me At the time of the explosion [illegible] Davis [illegible] and Mattison were sitting with me in the cabin having supper I was then in the employ of the V C Company two months and all that time I was working in the neighborhood of No [illegible] shaft My shift was from 2 P M to 10 P M There was good air then Some times we could not keep our lights burning on account of the current of air in the upcast There was always plenty of air in the [illegible] in which I was working About twice a week I was on top in the vicinity of the fan which was working It slowed occasionally when we were firing shots in the bottom of the shaft The slowing down would last about ten or fifteen minutes We had fired no shots that day The morning shift had fired a shot before we went down"

To Mr Drake—The cabin is about fifteen yards from the foot of the shaft. We were cribbing be low the level of the workings The names of those I have mentioned as with me are the names of some of the [illegible] killed and they were working with me at the sinking I saw no fire about of any kind I was knocked senseless and when I got out did not come to my senses until 9 o'clock P M when I found myself in the old school room The mine had been working that day as usual

## THE ILWACO TRAGEDY

### The Shooting was Done by Indians on Guard

ASTORIA May 26—A report from Ilwaco con sidered reliable says Ross was killed by Indians stationed to guard the [illegible] The Indians were placed there by owners and not recognizing Ross [illegible] and Green when they appeared fired with fatal result everything is quiet this evening It is thought Major W A Jones will shortly make a personal examination and report regarding the situation and the effect of traps on channels

TILLAMOOK TOM DID THE SHOOTING

ASTORIA May 26—The Indian that killed Ross is known as Tillamook Tom His name is Tom [illegible] the same who killed a man named Duncan on Clatsop plains three years ago

A SAN FRANCISCO VIEW OF THE ILWACO TROUBLE.

SAN FRANCISCO May 26—David I Beck of Beck & Sons commission merchants to day gave his theory of the causes of the trouble among fish ermen on the Columbia river Mr Beck says the trouble is between seine fishermen and those who fish with trap nets The seine fishermen who have to work hard to capture their prey have been accustomed to receive from 90 cents to $1 apiece for their fish The owners of trap nets save nearly the entire cost of the fish About three fish are required to pack a case of salmon so that canners who own trap nets save about $2 70 or $3 a case on the raw material For this reason seine fishermen fear a reduction in the price of fish As striking will not affect the trap net men more effective measures seem to have been adopted Mr Beck does not think the war will have any effect upon the market for canned salmon as it seems to be lo cal and not general He thinks it a mistake to use trap or pound nets on the Columbia river, as the practice will in a few years, result in destroying the fisheries in that stream In Alaskan waters where the fish run in myriads they will not prove so destructive as it is difficult to make nets strong enough to hold the fish and the nets are quite as likely to be taken by the fish as the fish are by the nets

Several other dealers in canned goods who han dle the catch of the Columbia river gave about the same explanation of the fight and its causes They all seemed to think that the fight would be a long and desperate one and that more blood would probably be spilled before a settlement was reached

## THE GILLIAM COUNTY MURDER

### The Crime Committed by a Man Deeming Himself Deeply Wronged

ARLINGTON May 6.—In company with a de puty sheriff your reporter took a trip to the neigh borhood of the scene of the recent murder commit ted in this county whereby Thomas Galphenee lost his life at the hands of a bloody assassin We found a number of the neighbors gathered at the house of Andy Douglass where the murdered man was last seen who were determined to ferret the matter to the bottom if possible Following are the particulars we learned in addition to those already known and published in THE OREGONIAN of May 21

The reasonable theory of the murder is that the assassin came to the window of the cabin after Galphenee had retired and after dark last Thurs day night a week ago smashed the window in and threw inside a torch or lighted paper and as the occupant raised up in alarm at being awakened in such a manner he was shot with a shotgun both barrels being fired at once, the charge taking ef fect as before described Then the murderer crawled in at the window and laid his victim s shirt over the head and body but did not molest anything in the cabin

The fact that this crime was not committed for the purpose of robbery is apparent All the money Galphenee had in his possession was $ 50 and that was in his trousers' pocket and was unmolest ed by the perpetrator of the crime and other arti cles about the premises being untouched showed that all he was after was blood

Suspicion points to a neighbor of Galphenee with whose wife the latter is said to have been in timate There is little doubt in the minds of those who are acquainted with the circumstances of the case that this was an act of desperation commit ted by a man who believed he was vindicating his honor by slaying his wife s paramour

As soon as the above was learned and talked over it seemed the general opinion that although the crime was committed in a cowardly manner that the supposed murderer cannot be convicted on account of Galphenee s rumored intimacy with his wife and because the dead man was not con tent without boasting of the matter to neighbors The suspect will be arrested unless he leaves the country before he is caught

The good of the order committee concluded that the Linn county council policies had been so suc cessful that they had the right they should be left under the same control which the grange con curred in

A resolution was introduced by J D Chitwood urging full and prompt execution of the interstate railroad law which was adopted

## CALIFORNIA.

A LECTURE ON EVOLUTION

SAN FRANCISCO May 26—The lecture last night by Alfred R Wallace the distinguished English materialist and thinker was attended by the most refined and educated men in the state Prof Jo seph LeConte introduced him as the greatest living champion of evolution The subject of the lecture was The Darwinian theory what it is and how it is demonstrated

The lecturer s concluding words were Hold ing as I do that mind is more fundamental than matter and that the spirit or soul is the real man of which the body is but the temporary manifesta tion or dwelling place I can easily believe that the body has been derived by gradual development from a lower animal life and that the very reason and purpose of these otherwise meaningless vegetable and animal kingdoms have been the production of a noble and perfect human form by and through which the spirit of man—the man himself—might be developed and be prepared through struggle and effort and unceasing warfare against physical and moral evil for a higher and more permanent existence

THE ROAD TO PORTLAND

SAN FRANCISCO May 26—The end of the track on the California & Oregon extension is now with in a mile and a half of Coles to which point the road is expected to be opened by next Wednesday General Passenger Agent Goodman yesterday said that as soon as the restaurant which the company is now building at Sissons is completed there will be another change in the time table between San Francisco and Portland by which the time be tween these two points will be reduced to forty hours The plan is to have a train leave here at 6 P M or perhaps later reaching Sissons at 8 o clock next morning Hornbrook, the present terminus, at 11 50 and Coles at 11 20

The citizens of Chico a town about half way be tween Sacramento and Redding are said to be entertaining a project of building a railroad to run from there in a northeasterly direction through Lassen and Modoc counties into Southern Ore gon crossing the Oregon line somewhere near Goose lake

A NEW MOVE BY THE CHRONICLE

SAN FRANCISCO May 2—The *Chronicle* to day publishes a map of the Pacific coast showing the different government signal stations thereon and ten new stations in California that the *Chronicle* proposes to establish to work in conjunction with the government stations Telegrams have passed between M H De Young and Gen Greely a Wash ington the outcome of which will probably be that government will furnish instruments for observing and the *Chronicle* will furnish observers and pay for transmitting reports to the signal office here It is claimed that the fruit and agricultural inter ests in this state necessitate these stations and but for a small appropriation by the last congress they would have been established The chief sig nal service officer here said yesterday that this new enterprise will confer an incalculable boon upon the people of California

RYAN CHALLENGES KILRAIN

SAN FRANCISCO, May 26—Paddy Ryan, ex champion pugilist of the world stated to an asso ciated press reporter this evening that having seen a dispatch that Sullivan had yielded up the championship to Jake Kilrain he protests against Sullivan's right to do so He offers to fight Kilrain to a finish bare knuckles London prize ring rules to govern, at any place Kilrain may name provid ing the fight can come off without interference as such fight is difficult to arrange If Kilrain ob jects he will meet him in the ring any way he wishes and for any amount up to $ 500 Mr Ryan has placed the sum of $1000 in the hands of the *Week* Publishing Company as an earnest of his sincerity

PORTLAND FRIDAY MAY 27, 1887

## THE GUILFORD MILLER CASE

It is found from examination of the records that President Cleveland was in error as to all the main facts in the Guilford Miller case, upon which he wrote his famous letter. He assumed upon misinformation that Miller was an actual and legal settler upon the southeast one-quarter of section 21, township 15 north, range 42 east of Willamette meridian, having settled thereon in June, 1878, and that the railroad company had unlawfully attempted to dispossess and evict him after he had lawfully settled on the land, made improvements and established his home thereon in conformity with law.

THE OREGONIAN has taken some time and been at considerable pains to ascertain from the official records the exact status of the Miller claim. It finds these facts, viz:

On the 2[illegible] December, 1884, Miller made homestead entry at the Walla Walla land office of the southeast one-quarter of section 21, township 15 north, range 42 east, alleging settlement thereon in June, 1878. But the records of the same land office show that Guilford Miller, on the 11th February, 1882, filed at the Colfax land office (that region of country being then included in the Colfax land district, but later on was annexed to the Walla Walla district) declaratory statement No. 2366, covering the east one-half of the southeast one-quarter, the southwest one-quarter of the southeast one-quarter and the southeast one-quarter of the southwest one-quarter of section 22, township 15 north, range 42 east, alleging settlement thereon October 1, 1881. This tract adjoins the tract claimed by the railroad as indemnity and, about which this contest is raised. How Miller could lawfully take the oaths required in perfecting his entry in the odd section after having made the filing upon the other tracts in the even section does not appear.

Further, on August 4, 1884, Miller made final proof and cash entry covering the tract described in his declaratory statement (Colfax series) 2366, again alleging under oath settlement thereon October 1, 1881, and continuous settlement and residence until August 4, 1884. Hence Miller, by his own showing, was not an actual settler between October 1, 1881, and August 4, 1884, on the southeast one-quarter of section 21—which is the land in dispute, and which has obtained national celebrity under the name of "Guilford Miller's farm." This same tract, as the records further show, was selected, in accord with instructions from the general land office dated November 27, 1883, by the Northern Pacific Company as a parcel of its indemnity land, and the particular selection in which this tract was included was certified to by the register and receiver of the Spokane Falls land office, December 17, 1883. When the selection was made the examiners reported from twenty to thirty acres of the tract in cultivation by Guilford Miller, but no trace of any residence thereon.

The president, therefore, in preparing his letter to the secretary of the interior on the Miller case, was led into a mistake. The letter was written on the assumption that Miller had resided continuously upon the land since 1878, that the land had been taken by him as a homestead, and that the railroad company was unlawfully endeavoring to wrest it from him. But it is shown by the records that Miller had meantime secured 160 acres of other land from the government, and he could not have lawful title in both cases; and moreover, that his homestead entry in section 21, the land in dispute, bears date December 2[illegible], 1884, more than one year after it had been selected by the railroad company as lieu land.

The conclusion unavoidably is that Miller either has no title to the tract in section 21, the railroad section, or he has not made lawful proof to the tract in section 22, the government section. That is, he is claimant in one section or the other of land that he cannot be lawfully entitled to hold; and the case becomes one of fact, of record, of law, and is not a matter of sentiment at all.

As matter of fact, Miller has not resided on the tract in the odd section, but on the tract in the even section. As matter of record, it is found that under oath he alleged settlement on the tract in the even section October 1, 1881, and continuous residence thereon till August 4, 1884, and therefore could not have had residence on the tract in the odd section, as supposed by President Cleveland, and also, as matter of record, the railroad company selected the tract in section 21 more than one year before Miller's entry thereof, and while he still claimed, and in fact had his residence on the tract in section 22. As matter of law, he could not acquire any homestead rights in section 21 or elsewhere while residing upon or claiming residence upon his pre-emption entry in section 22. With the filing of his declaratory statement concerning the tract in the even section he necessarily abandoned whatever lawful right or claim he may have had to the tract in the odd section, and therefore his right or claim to the latter cannot date back to June, 1878.

By Eastern journals which have been trying to make party capital out of the president's action upon this case a prodigious amount of horn-blowing has been done for the president. Beyond doubt the president was quite earnest and sincere in his statements, but he hadn't the facts before him and therefore fell into error. In all cases like this the title to the lands will be decided upon the law and facts, and upon the finding of the facts and the application of the law thereto, not upon the president's effusive letter; the question as to title between Miller and the railroad will be determined. Declamations of newspapers and politicians, in their effort to make political capital for individuals or parties, will [illegible] at all. Lands granted to the railroad, including those unoccupied lands selected under authorization within the indemnity limits, will be held by the railroad; and in this particular case, after a very full inquiry, THE OREGONIAN has no doubt that the lawful title will be found to belong to the railroad, and not to Guilford Miller. This conclusion is not reached out of partiality to the Northern Pacific, for THE OREGONIAN would be extremely glad if the law could be interpreted so as to reduce that company's enormous grant. But settlers should welcome facts rather than sentimental theories, and they are not real friends of the settlers who urge them to action on the assumption that the company's claim to indemnity lands has no legal foundation.

## THE NEWSPAPER

THE OREGONIAN publishes a short communication on the newspaper, and on the quality of matter it furnishes to its readers. Many questions are asked, to which the general answer is that the writer assumes that newspapers give less space to important matters than they actually do, and more space to unimportant matters than they actually do. A newspaper like THE OREGONIAN prints fifty columns of matter which this writer classifies as matter of interest to the "moral and substantial class" to one column which he describes as interesting only to the frivolous, vicious and immoral class. But there is a further error to be eliminated. There are many people, not immoral, who take a passing interest in a horse race, or even in a prize fight, and a newspaper that should make it a rule not to notice such things would fail to meet a demand of more than the "hoodlums" of society. No genuine newspaper fails in its duty to report the important events of the day, or to give large space to description of what is going on in the active world around it. For example, THE OREGONIAN believes that whatever concerns any considerable number of people in the Northwest—what they purpose and think and do and speculate on and talk about—is reflected through its columns. Its purpose is not only to represent the business and industrial activities and material progress of the Northwest, but to afford a platform for discussion and opinion. It believes it does all this to an extent beyond any other paper in the Northwest, and indeed, on the Pacific slope. To discussion of purely moral and religious subjects it gives up ten times the space it allows to "matters of interest only to the rattle-brained, idle, sporting and vicious classes," but it fears it would soon be thought an extremely dull paper if its idea of interesting matter was the humdrum proceedings of the Y. M. C. A. or W. C. T. U. conventions, if it expected to thrill the country with machine-made reports of teachers' institutes, or even supposed that moral, religious, educational and scientific essays, however excellent, could successfully take the place in the newspaper of those things of passing human interest that the severe moralist, especially if there were a touch of cynicism in his nature, would condemn. The newspaper must maintain some relation with even the trifling affairs of earth, and must even take note of its immoralities. Could you spare these things out of Shakespeare? And yet his persons are purely imaginary. How much more interest does the world of readers take in such matters when the persons are known! Even the bible doesn't omit from the record what this reader of the newspaper criticises, and would have the newspaper reject. Now isn't there a good deal of cant upon this subject by a class of our newspaper readers? We are not living in Utopia, but on the planet known as the earth, among human beings, who take a human interest in human things, and these facts the newspaper cannot possibly ignore. But it is as absurd to say that the newspaper is given up wholly, or even largely, to trifles, frivolities and records of vice, as to allege the same thing of Shakespeare or of the bible itself.

Work of enlarging Hogue's saw mill has been commenced.

Mr. Sanborn, formerly of Mount Tabor, has bought a farm near Fairview.

Nineteen cows of Thomas Fallon were scooped in yesterday by the poundmaster.

A teachers' institute will be held in district No. 12 commencing next Saturday, May 28.

Hotel registers at Albina show arrivals from all over the Eastern states. The terminal city has a reputation far and wide.

A new fender is being constructed at the railroad ferry. It is used for the ferry to swing against in approaching the landing.

It is stated that the case of Warren against Brilliant, Friedman & Halsburg, tried in the justice court Wednesday, will be appealed by Warren.

Workmen began making excavations yesterday for the new engine house in Stephens' addition. The contractors will push the work as rapidly as possible.

Victoria dock will be enlarged from four to seven sheds, which will make it the largest upon either side of the river. A pile driver is at the dock and workmen are engaged in preparing to make the contemplated enlargement. The capacity of the warerooms will be about doubled.

A little boy whose name could not be ascertained, while playing near the ferry at Albina, fell into the water and came very near being drowned. The ferryboat captain states that boys in large numbers collect near the slip and play around on the driftwood. An accidental drowning is liable to happen at any time.

Arrangements have been completed by which the improvement of Fourth street will be made from a point 100 feet north of L street to J street. With one exception all the property holders have signified their willingness that the improvement should be made. The one making objections represents fifty feet, and it is stated that his assessment will be made up and the work go on. This improvement has been delayed a long time.

It was stated yesterday that there is a proposition to open and improve K street with the understanding that whatever company secures a franchise shall pay one third of the cost. There is a question whether as now constructed rails can be laid on the elevated roadways. By constructing the roadway on K street in such a way as to admit of rails being laid the street can be opened at two-thirds cost, the company paying one-third. It is stated also that the property holders along K are in favor of the improvement. The part to be opened is from Water out to Fifth.

council to order and a quorum was present. A communication from the mayor was read in regard to grades. He recommends the grades to be changed at the intersections of Russell and Gibbs, Whiteaker, Curry, Davis, Gal[illegible], Lane, Thompson avenue, Prescott avenue, Rawley avenue, Kirby street and Borthwick streets. The change is made to accommodate certain cuts. He also recommended that the ordinance in relation to city grades be considered at once, as property holders on Russell street are anxious to proceed with the improvement of that street. A bill of $45 of the Albina *Courier* and a bill of $30 of R. H. Schwab & Bro. were allowed. An ordinance is in the hands of the committee on fire and water that gives any water company rights to lay water pipes by obtaining permission from the city council and filing a map of such works, and a record of the names of the consumers.

The schools in this district will close June 8. High school has already been dismissed to give time to the principal to superintend reviews, examinations and grading of pupils in the other departments. There will be no graduating class this year for the reason the High school course of study was changed a year ago from a two years' to a three years' course. Next year there will be a class of thirteen. Mrs. McQuinn and Mrs. George, of Stephens addition school, and Mrs. Powell, of J street school, will close their relations with the schools at the end of this term. About 1000 pupils were enrolled this year. Central school building can accommodate 500, Stephens addition school 150 and 50 in the J street school. Some provision will have to be made for those attending J street school, as that building is not fit to be occupied. And the building in Stephens addition will have to be completed. Monday, June 8, the long-deferred school meeting will be held, and it is earnestly hoped that all interested will be on hand.

FOREST GROVE, May 26, 1887.

TO THE EDITOR OF THE OREGONIAN:

I was interested in the inquiry and answer in yesterday's OREGONIAN relative to the amount of space given to the recent convention of the Y. M. C. A. in San Francisco and growing from that, the conclusions which you drew as to the kind of reading the public wants.

It may be presumptuous to question the accuracy of observation of a veteran newspaper manager. But as a matter of interesting information I would like to learn if it is not true that the regular support of standard dailies consists mainly of the moral and substantial class to whom dog fights and stage gossip, etc., are not important or interesting. Is it actually true that the rattle-brained, the idle, the vicious, the sporting classes, etc., are the main moral and financial dependence of our standard papers?

It would seem that the experience of THE OREGONIAN when taking its powerful stand for law and order during the Chinese agitation last year was a case in point.

Did it not find that its loss through the boycotting of hoodlums was more than compensated by the additional support of the intelligent and solid? Might it not winnow the press dispatches of the rotten chaff which they contain with a like happy result? Do you seriously believe that the reading public wants more about Etna Gason's troubles with the Salvation Army than it does about the condition and prospects of railroads projected hither? Does it care more to read about Dempsey's or Sullivan's broken arm than about the late inventions of Edison or the last meetings of scientific and educational societies? Or is the quarrel of Porter Ashe and his wife or the last dog fight of more vital moment to it than the prohibition election in Michigan or the Y. M. C. A. meeting in San Francisco?

Furthermore does not the newspaper have a great deal to do in forming public sentiment? If it publishes trash the people will read trash and degenerate accordingly. If it publishes sense people will read sense and improve accordingly.

Is it not probable that the source of this infinite deal [illegible] reporters and news gatherers [illegible] noise and [illegible] of real public importance [illegible] public equally [illegible] imagine that [illegible] I am sure that many of your readers would be glad to know the true inwardness of this important and interesting matter.

## KELLY FINED.

HIS BARKEEPER WANTS MONEY ADVANCED AND GETS A BLOW.

Saloon keeper James Kelly was tried and convicted in Justice Tuttle's court yesterday of assault on Frank Anderson and was fined $15, which he paid. He was also bound over to keep the peace against Anderson in the sum of $200. Anderson was barkeeper in Kelly's saloon prior to and during the time Kelly was in the county jail. His statement is that Kelly owes him $175. Of this amount he advanced $140 before Kelly was arrested for the Randall affair and $35 just before Moran skipped. Anderson says they were making up a purse of $200 and wanted $30 to complete it and they called on him for the latter amount; that he took $16 out of the drawer, borrowed $15 from Paddy McGinnis and raised the remaining $20 by pawning his watch. This $50 he says he delivered to Ed Morgan. Afterward he paid McGinnis the $15 and this with the $20 raised on his watch and the $140 previously advanced left Kelly in his debt $175. Anderson says further that he threatened unless Kelly paid him the $175 to divulge the fact that Kelly was a deserter from the United States army from Stillwater, near Leadville, Col., and this caused Kelly to assault him and threaten to fix him. These and other like circumstances are given out as the cause of the difference between the two.

## SPIRITUALIST CAMP MEETING.

A grove meeting of spiritualists will be held at New Era, Clackamas county, Oregon, beginning Thursday, June 23, and holding five days.

The board of managers will complete all necessary arrangements for the success of the meeting, and the accommodation of visitors, including the finishing of the hall now under way on the grounds, and the reduction of return fare to those who go to the meeting by railroad.

A special invitation is given to test mediums and to trance and inspirational speakers to attend the meeting and give evidence that the gate between the two worlds stands ajar and that our departed friends, though seemingly dead, yet live and can and do commune with us.

A cordial invitation is extended to the general public.

WM. PHILLIPS, President.

THOMAS BUCKMAN, Secretary.

## THE STAGE.

FROU FROU.—The sale of seats for the Rhea season commenced yesterday morning with very flattering results. A great many tickets were sold for the week, and the sale for Frou Frou, the opening play, was exceptionally large. Rhea is playing in Butte City, Montana, this week, and the press of that city is very enthusiastic over this distinguished actress and her company. They pronounce her the greatest artist ever visiting Montana.

The supposed to be fully informed say the reason we so liberally advertise Mount Tabor is to cause we are trying to sell out Belmont Park. Maybe it is so. He believes that sleeping in its pure atmosphere saved his life when his friends thought, and some of the aforementioned "fully informed" perhaps hoped, he would die.

THE CELEBRATION FUND —Yesterday the fund for the celebration of the Fourth of July was increased $310 This makes the actual fund subscribed $3700 and does not include subscriptions promised by the O R & N Co other transportation lines the bridge and ferry companies. So the amount will be ample for a big celebration James Campbell, of this city, has offered to illuminate Mt. Hood for $35, and agrees to stay by the red fire and light it by hand, not depending on alarm clocks This illumination should be secured by all means. If the night happens to be cloudless, and the light can be seen in the Willamette valley, the fact would be telegraphed East, and would attract more attention to Mt Hood, and indirectly to Oregon, than tons of immigration literature

PETITION TO SELL CHURCH PROPERTY —Bishop Morris yesterday filed a petition in the state circuit court for leave to sell lot 4 block 10, Watson s addition The property is situated on Sixteenth street between S and T and was conveyed for church purposes April 17 1874 by A J and Ora Watson and an Episcopal chapel was built on the same The petitioner states that the chapel needs additions to it and that the lot on which it now stands is good business property and can be sold to advantage and a suitable location obtained adjacent to it The chapel can be moved and the difference made in the selling of one lot and the purchase of another It is expected will pay for the additions to the chapel

FERRY AT SELLWOOD —The Jefferson Street Ferry Company have a force of men at work putting the ferry boat Veto in perfect repair They have had several good offers from parties who wish to buy the boat for a ferry down the Columbia but have concluded that it will be a better paying investment to put her on the Sellwood ferry She will be taken up to day and the cable laid as soon as possible It is expected that she will be running on Sunday Parties going to Milwaukie can cross from Fulton to Sellwood, drive a mile through the town on a good plank road and then take the county road The ferry will enable teams to pass between this city and Sellwood much more readily than at present

ELOQUENT ADDRESS —Mr Woodford s address at the Presbyterian church last night was one of the most eloquent ever given in the city The audience was good and the enthusiasm at concert pitch The effort of the speaker fully justifies all that has been stated concerning his eloquence and his power The ladies of the Presbyterian church are going to show their appreciation of the speaker and the cause he represents by giving a free lunch to-night in the basement of the church at the close of Mr Woodford s lecture It is hoped that the friends of the cause will kindly aid this laudable undertaking by bringing in this evening sandwiches and cake for the tables

DISCHARGED FROM CUSTODY —In the United States circuit court yesterday on motion of United States District Attorney McArthur W P Davis jointly indicted with J M Otey for uttering counterfeit coins was discharged from custody His indictment in the first place was a matter of surprise because Davis was instrumental in placing the authorities upon Otey s track In default of bonds Davis was held in the county jail here many months as a witness There is not the slightest doubt as to his innocence He is a hard working man bearing a good reputation

NEW WAY OF FISHING —Mention was made some time since of a fish trap made by Capt. Feltus, for catching deep sea fish in the Sound. Nothing was heard of it for some time, and it appears that the meshes were too large and the fish walked in at the door and went out anywhere So he had the size of the mesh reduced and is now taking codfish, smelt Spanish mackerel rock cod in short all sorts of fish which as they are taken out just in time to be shipped, arrive here in prime condition The idea of sinking a corral to the bottom of the salt sea to catch fish in is a novel idea, on this coast at least.

(Extract from OREGONIAN May 16)

PARADISE SPRING FARM.

WHAT AN OREGONIAN REPORTER LEARNED IN AN INTERVIEW ON SATURDAY

Can you afford at the price asked per lot in your tract to erect and give away six hard finished houses as you advertise asked an OREGONIAN reporter as he entered the office of Hennelly Flynn & Co last Saturday afternoon

Yes we can replied Mr Flynn as he invited the inquiring pencil pusher to take a chair and further more we propose to do it We awarded the contract yesterday afternoon to Mr G H Wiser for the erection of six houses on the place at a stipulated cost of $1140 each and they are to be ready for occupancy by the 10th of July These houses are modern design ground floor cottages of the most approved style and will contain baywindow parlors connected with sitting room by folding doors also two large well lighted bed rooms bathroom, dining room kitchen pantry closets hallway etc. They are to be hard finished and painted throughout and the last one will be ready for occupancy by the 10th day of July In addition to the above there are two very good houses now on the premises which will also be given away with the rest making eight houses in all or two more than we have advertised

Is the land level?

Yes every foot of it is level and in actual cultivation with fruits and berries and if it were not so we certainly would not furnish free carriages for its inspection We have 170 lots in the tract and we will agree to give $125 cash for the most undesirable lot in the whole number either before or after the drawing as the purchaser may elect

I thought you had 208 lots?

We supposed we had that number but after a careful survey of the property under the supervision of D W Taylor we found after dedicating streets that we had but 170 so the purchaser instead of having six chances out of 208 of drawing a house with the lot as advertised will have eight chances out of 170.

Then your profit in the matter will not be as large as you anticipated

No we do not expect to make a fortune out of the sale but we intend to keep faith with the public even if we do not make one dollar out of the investment Right in this connection we might say that a great many stories have been advanced by malicious moss backs who decry everything that tends to leave them in the shade—where they belong—about the amount of money we make out of the enterprise And for their especial benefit as well as for the enlightenment of the public we will state that we have in this matter assumed a $34 000 risk to make $4000 and in doing so we have afforded men of moderate means a chance to acquire a home in a locality where it could never have been accomplished otherwise We have 20 acres in this Paradise Spring Farm tract for which we have paid $800 per acre or a sum total of $20 500 In addition to this we expend $6840 in the erection of six hard finished houses, $1500 for advertising, $ 60 for attorneys fees $200 for surveys and maps and $300 for carriage hire which makes a total of $30 000 Out of the sale of 170 lots at $200 each we will realize the sum of $34 000 which affords us a profit of $23 per lot or $4000 more than our expenses and we wait ten months for our money without interest

"That appears to be a very candid statement.

Well that is the way we do business We have nothing to conceal in the matter and we might add that if any of our competitors can do any better by the public we would like to have them do it. Some indirect intimations have been made by wholly irresponsible curbstone real estate fakirs who don't own a foot of land to the effect that land could be purchased in that vicinity for less than $800 per acre and for their benefit we will state right here that if they or any of their friends have any land in the same locality that is east or west of Paradise Spring Farm fronting on Mount Tabor avenue with advantages equal to ours we will take every foot of it at the same price

"That certainly ought to settle all disputes about the value of the land remarked the reporter as he prepared to take his departure

If you don't think it does just call on W S Ladd who owns 480 acres adjoining our property C M Wiberg who owns an $8000 residence across the street Wm Beck president of the Morrison Street Bridge Company whose home adjoins Paradise Spring Farm or in fact any one owning property fronting on Mount Tabor avenue and if you can purchase land in that vicinity for less than $800 an acre we will make it an object for you to do so

When is the award of houses to be made

On the evening of the 13th of June at the New Market theater without fail. As some question has been raised about the intrinsic value of these lots we will state right here that we will give each and every purchaser the sum of $ cash for the option of taking the lot back at any time within twelve months for the sum of $200 Thus our guarantee to each purchaser is simply to bind us ... on the investment and that too on property which has not yet been paid for

That seems to be a pretty liberal offer to make remarked the reporter as the thought of investing suggested itself

Yes it may seem like an extravagant offer but when you take into consideration the indisputable fact that Portland s present population will double within the next five years and that the masses will be obliged to seek homes on the east side of the river, you think you will find it a very safe proposition and we have no hesitancy in making it.

From the above statement it will be seen that our profit in the enterprise while comparatively small is of a collective rather than an individual nature coming as it does from the many rather than the few In other words by disposing of 170 lots in one body we are enabled through the collective profit arising therefrom to make terms to the many which we or no one else could offer to the individual We sell these lots at $200 each $50 of that sum to be paid at time of subscription and the balance in monthly installments of $10 each without interest We give each purchaser a good and sufficient bond for a deed in the sum of $400 warranting the title to be perfect and everything as represented or the money will be refunded on application at our office

As only a few of these lots remain unsold remittances will not be received after June 1st from the interior except with the understanding that we reserve the right to reship at sender s expense

Parties in the interior desiring to invest in Paradise Spring Farm should notify us by mail or telegraph before sending money in order to save unnecessary expense All those who have spoken for lots in the above named tract will confer a favor by calling at once and acquainting us with their conclusion in the matter as we wish to avoid any misunderstanding about priority applications.

CARRIAGES leave our office every day (Sundays included) at one and three o clock for the free inspection of the property We ask no one to buy before satisfying themselves that Paradise Spring Farm addition is all that we claim for it.

### The Opera Comique Fire Proves to be an Appalling Disaster—The Loss of Life Placed as High as Two Hundred.

### THE PARIS HORROR.

### The Loss Now Placed as High as Two Hundred.

PARIS, May 26.—The bodies of the ballet dancers who lost their lives by the burning of the Opera Comique last night are lying in heaps in the ruins of the theater. The firemen assert that many bodies are lying in the upper galleries, and the number of persons killed greatly exceeds previous estimates. An excited crowd surrounds the ruins, which are guarded by a military cordon. Twenty bodies in a terribly mutilated condition have been recovered from the ruins. The remains are principally those of ballet girls, choristers and machinists.

RECOVERING THE REMAINS.

The remains of three men and two women were found in the stage box, where the victims had taken refuge from the flames. It is ascertained that many bodies are buried in the upper galleries where escape was exceedingly difficult. The government proposes to close several Paris theaters because of their deficiency in exits. Late this afternoon the bodies of eighteen ladies, all in full dress, were found lying together at the bottom of the staircase leading from the second story. These ladies all had escorts to the theater, but no remains of men were found near where the women were burned to death.

The walls of the theater began falling this evening, and the search for the bodies had to be abandoned for the day. The library attached to the theater was entirely destroyed with all its contents, including many valuable scores. Six thousand costumes were burned in the wardrobe.

The work of searching for the bodies was resumed to-night. A number more have been exhumed. The official statement says fifty bodies have already been recovered. Revelllon, speaking in the chamber of deputies this afternoon, estimated that at least 200 persons lost their lives in the fire.

IT GROWS WORSE.

PARIS, May 26.—To-day 153 missing persons have been inquired for by relatives. They are supposed to have perished in the flames. The bottom of the theater was flooded with water to the depth of five feet. Sixty bodies have been found floating in the water by firemen.

SCENES OF HORROR.

PARIS, May 26.—Among the audience at the Opera Comique last night were Gen. Boulanger, Gen. Saussiere, Gen. Thibaudin, M. Goblet and M. Berthelot. All escaped unhurt. An artist named Phillippe performed prodigies of valor in saving life. He mounted a ladder three times and saved three danseuses after they had been abandoned by the firemen.

In the rue Favart a sudden gust of wind cleared away the dense smoke, when a woman and two men were seen standing in an angle of the uppermost cornice. The woman tried to jump, but the men prevented her. When all were finally rescued the woman was a raving maniac.

A singer had a miraculous escape from a dressing room in an angle at the top of the building. He says the winds kept the flames off that part of the building, but a river of molten lead poured from the roof, the course of which he diverted with a board, to prevent the weight carrying down the shaky floor.

The officials are endeavoring to underrate the loss of life. The large number of bodies found has alarmed the public.

The theater Chateau d'Au announces a performance for the benefit of the sufferers Monday.

### LANSDOWNE'S WELCOME.

### A Rousing Reception by the People of Ottawa—His Remarks.

OTTAWA, May 26.—Gov.-Gen. and Lady Lansdowne arrived at home from Toronto at 5:30 o'clock this afternoon. They had received an enthusiastic welcome all along the route, and the demonstration at Ottawa was the grandest ever seen in the city. The route was along Queen, Wellington, Bank, Sparks and Elgin streets to Cartier square. The procession was headed by the bicycle club and an escort of 300 mounted citizens. Six brass bands were distributed through the procession. A very large number of vehicles and private citizens followed. There was an enormous concourse in the square, estimates varying from 15,000 to 20,000 persons. The address of welcome felicitated the governor-general on the regard and esteem in which he is held in Ottawa, referred to the progress the city has made during his term of office, and expressed the devotion of the city to the queen. It contained no reference to O'Brien.

After the address was read Father Dawson read a jubilee ode.

LANSDOWNE'S REMARKS.

The governor-general, after thanking the citizens for their magnificent welcome, said: "Of myself you have spoken in terms which I feel reflect the good will which exists between us rather than my own deserts. I am afraid, however, that even upon this assumption I cannot entirely account for the extraordinary reception which we have encountered at the hands of your people. We have often returned to your city after tours of various duration in the country, and we have always done so quietly. To-night, almost without attracting observation, and with no other greeting than friendly salutation from any passing acquaintance whom we happened to meet on our way to the government house. Now, sirs, how are we to account for this exceptional and unusual display of your coolness and good will? I have made inquiries and endeavored to arrive at some explanation of the facts, and I am given to understand that the explanation is this: That since we saw you last, an invasion of Canada has taken place, and that invasion has not been successful. I learn that the invasion was, in some respects, remarkable. The invading force was not numerically strong. It made up, however, in intrepidity for its weakness in numbers. It appears, moreover, to have taken, at the outset of its operations, a step which is, I believe, not unusual with well-skilled strategists. It seized possession of the telegraph wires, through which information of a most startling character was liberally poured into the country. I understand, further, that the object of the invaders was to overrun the country, and above all designs to put to flight a certain high official of the state, of whom, unless I misunderstand what has taken place on this occasion, the people of Ottawa are not particularly anxious to get rid just at present. Well, sir, there appears to have been one weak point in the arrangements. We all know that one of the most valuable departments in the military service is that which is known as the intelligence department, in which information bearing upon any operations which may be in contemplation is collected. In this case the invaders were completely misled by their intelligence department."

"JOHN BROWN'S BODY."

The governor-general closed with an expression of his thanks. At the conclusion of the address school children sang "God Save the Queen" and other choruses, and the vast crowd cheered themselves hoarse. While the vice-regal party was leaving the children started up "John Brown's Body," and after singing a verse or two diverted into "We'll Hang O'Brien on a Sour Apple Tree." The governor-general's horses were unharnessed by a crowd of young men belonging chiefly to the Foot Guards and Forty-third Rifles, and the carriage was taken in a trot to Rideau hall.

### CANADA.

A LOYALIST MOVE FAILS.

OTTAWA, Ont., May 26.—In the commons to-day the loyalists had prepared a motion to commit parliament to an indorsement of the governor-general's welcome home from the West. Small, of Toronto, moved that the house take a recess, in order to give the members an opportunity to take part in a reception to the governor-general. Mr. Blake, leader of the opposition, took objection. The ministerialists received this with jeers, but it was sufficient to kill the motion.

The house of commons adjourned at 5 o'clock to meet Lord Lansdowne, Sir Charles Tupper asking the opposition not to object. In an interview Tupper said: "My visit to Washington was purely unofficial."

Watson, member for Manitoba, brought up in the house [illegible] motion in favor of permitting [illegible] of Manitoba to charter railway lines to the [illegible]. Tupper, in a vigorous speech, [illegible] the motion. He said agitation in Manitoba [illegible] the disallowance policy was solely in the interest of the Northern Pacific Railway Company. # CHURCH CONVENTIONS

## The Southern Presbyterians Talk About Reunion.

## REVIVAL OF THE WAR ISSUES.

### Proceedings of the Baptist Convention at Minneapolis—The United Presbyterian Church—The Presbyterian Assembly.

### THE SOUTHERN PRESBYTERIANS.

### The Question of Reunion Discussed with Much Rancor.

ST. LOUIS, May 26.—The attention of the general assembly of the Southern Presbyterians was entirely occupied to-day by discourses on the advisability of a union with the Northern church. Rev. J. M. Potts strongly advocated the union, just as soon as it can be accomplished, on terms and conditions safe and honorable to both sides. The animosities engendered by the war should be over. The Episcopalians and Baptists had united with their Northern brethren, and now it was time for the Presbyterians to do likewise.

Rev. C. K. Vaugh of Lexington, Va., spoke against the majority report. He thought the church could not change its relations as quickly as business men and politicians. He laid particular stress upon the color line, "and, after a time," he said, "you will see the elegant black gentleman offer his arm to your white girl, and she gratefully accept it."

Rev. B. M. Palmer of New Orleans, revived the issues of the war, and bitterly arraigned the Northern church for what he called ejectment in 1861, and followed it with an inflammatory denunciation, ringing in the color line that was the cause of the split in 1861, and was the cause of dissension now.

### CHURCH CONVENTIONS.

THE BAPTISTS AT MINNEAPOLIS.

MINNEAPOLIS, Minn., May 26.—At the afternoon session of the Baptists the committee on nominations reported the following officers, and they were elected by formal ballot: President, Mr. Samuel A. Crozier, of Pennsylvania; vice-presidents, Thomas Armitage, D. D., of New York, H. H. Tucker, D. C., LL. D., of Georgia, Edward Goodman, of Illinois, Joshua S. Evering, of Maryland; secretary, Benjamin Griffith, D. D.; recording secretary, Howard Gendeli; treasurer, Charles H. Banes.

The committee on enrollment reported in the afternoon 772 delegates present at the publication society meeting, thirty-eight states and territories being represented. Rev. Dr. Bitting opened the meeting this afternoon with a statement of the finances of the society.

The congregation that responded to the call of the Woman's Baptist Foreign Missionary Society at 2 o'clock this afternoon was so numerous as to crowd the auditorium and comfortably fill the gallery of the Hennepin avenue M. E. church. Mrs. Rowe, of Boston, presided. After devotional exercises Mrs. O. W. Gates and Mrs. A. M. Badun, respective corresponding secretaries of the society, east and west, delivered brief addresses. Mrs. Gates also on behalf of Mrs. S. B. Learo, editor of the *Helping Hand*, who was unable to be present, presented the salient features of that publication.

The enrollment committee reported.

Rev. D. D. Prosper of Kansas presented a resolution declaring unalterable opposition to all forms of the liquor traffic for beverage purposes, and pledging the best efforts to secure its entire suppression.

At the evening session able and eloquent addresses on subjects of the day were delivered, after which the anniversary of the publication society ended.

THE UNITED PRESBYTERIAN CHURCH.

PHILADELPHIA, May 26.—Clergymen from Maine to Texas, and from the Atlantic to the Pacific, were in attendance this morning at the opening of the twenty-ninth general assembly of the United Presbyterian church of North America. There were present about 3000 delegates, comprising an equal number of ministers and laymen. The opening prayer was followed by the election of a new moderator. The contest was of especial interest, since it involved the instrumental music issue, over which the church for some time has been divided. Two nominations were made—Rev. Matthew Macermick Gibson, D. D., of San Francisco, an earnest advocate of the organ, and Rev. J. G. Carson, of Xenia, Ohio, an anti-instrumental candidate.

The annual financial reports of the board of foreign missions, church extension, education, freedmen's mission and publication were presented.

The result of the ballot was a decisive victory for the advocates of the church organ, and it indicates how this issue will be disposed of later in the session. Rev. Dr. Gibson received 129 votes and Rev. Mr. Carson 59.

The only important business during the afternoon was the presentation of the report of the permanent committee on reform, which was read and placed on the docket. In it the committee declares that the right basis of all true reforms is Christianity. Reformation built upon any other foundation will be unsound and unsettled.

THE PRESBYTERIAN ASSEMBLY.

OMAHA, May 26.—In the Presbyterian assembly this morning the report of the committee on education was read, showing that the number of candidates now under its control is fifty-six more than last year, making in all 696. There is a debt of $15,000, attributed to the falling off of legacies; net increase of churches last year, 188; net increase of ministers, 1029, after filling vacancies caused by 169 deaths.

REFORMED EPISCOPAL CHURCH.

PHILADELPHIA, May 26.—The eleventh biennial session of the general council of the Reformed Episcopal church was continued to-day. The new canon on marriage and divorce was taken up for consideration. After a prolonged discussion the subject was recommitted to the committee on constitution and canons.

AMERICAN TRACT SOCIETY.

BOSTON, May 27.—The annual meeting of the American Tract Society was held yesterday. The old board of officers were re-elected with the exception of the secretary, Rev. Jeremiah Taylor, D. D., being elected in place of Rev. M. M. Cutler, resigned.

THE GOOD TEMPLARS REUNITED.

SARATOGA, May 26.—To-day's session of the right worthy grand lodge of Good Templars and the English or seceding body was almost entirely given up to discussion of the question of reunion. The matter came to a vote, and reunion was ratified. The terms on which the union is made are set forth at length, to prevent discrimination on account of race, sex or color.

At the evening session a reunion took place. The members of the English branch entered the lodge room in a body, amid cheers and applause.

### RAILROAD NOTES.

THE PACIFIC ROADS.

BOSTON, May 26.—Before the Pacific investigation committee to-day F. Gordon Dexter, who has been a director of the Union Pacific for twenty years, testified. His evidence was in corroboration of Ames's version of the condition of the Union and Kansas Pacific roads prior to the consolidation. He was satisfied that the acquiring of the Kansas Pacific was a very important and good thing for the Union Pacific to do. In his judgment it was to the advantage of both roads, but he is not sure it was for Gould. Judge Dillon incidentally testified as to certain suits brought against the company, including that in connection with the Ames-Fisher contract.

After recess the examination of Dexter was resumed. Being asked as to his judgment of the result of the policy pursued since 1875 by the Union Pacific in connection with the construction of branch lines and investments made by it in branch roads, Dexter replied: "Although we made here and there a mistake, there is no question about the great policy being good. I would advocate pursuance of the same policy in the future." To his knowledge no director or officer of the road was interested in any coal operation of the company for private profit. Witness said Gould's ideas about the duties of a director were sometimes peculiar. The only thing the Union Pacific suffered under was the uncertainty attending its relations with the government. He agreed with President Adams that it would be better for the road to pay a gross sum instead of asking payment on the net earnings.

Ezra H. Baker, another director, thought the action of Gould, as a Union Pacific man at the time of the consolidation, very proper. He knew of no intention of the directors to abandon the road to the government. Adjourned.

ANOTHER CANADIAN PACIFIC MOVE.

SAN FRANCISCO, May 26.—The Canadian Pacific has made another aggressive move. It is going into the territory of the American transcontinental lines with a rate of 75 cents per 100 pounds on barley and beans. Points to which this rate is made is Omaha, Kansas City, St. Joseph and other towns in the Missouri valley. Beans are a leading article of overland shipment, and in capturing this traffic the Canadian Pacific will greatly increase its east bound tonnage. Distance is of course greatly against the Canadian line, shipments going first to Port Moody, 879 miles; then to Winnipeg, 1562 miles; then to St. Paul, 456 miles; then to Omaha, about 400 miles, or a total of 3300 miles.

Beans are carried over that extent of water and rail mileage from this city to Omaha for 75 cents per hundred pounds, when the rate by American transcontinental lines is 85 cents, and the distance is only 1800 miles, taking the Central and Union Pacific as the route.

A well known freight man said yesterday, with reference to the Canadian Pacific's evident intention to keep ahead in the race: "The Canadian Pacific is a new line. What it gets in the way of through traffic to and from this city is so much clear gain to its company, and it can only get this business by making cut rates. A particular reason why it is so anxious to secure business from this city now is to show that it can handle such traffic. The company shows that if it once gets the traffic working over its line, even although higher rates may be put in force, a certain amount of business will adhere to the line."

Another agent said: "I do not share in the popular belief that this competition is to be continued but a short time. When you figure up mileage rates and other costs, you will find that the Canadian Pacific is playing a losing game. Its proportion of the 75 cent rate cannot be more than 20 cents, and if any profit can be argued out of that I would like to know how it is to be done. Things will probably keep along as they are until the Canadian government begins to make inquiries about the earnings of the road, and then there will be a reaction."

THE GREAT TUNNEL PROJECT.

NEW YORK, May 26.—The uppermost topic at commercial exchanges and among Wall street financiers is the important announcement that a syndicate of foreign and home capitalists have advanced the requisite funds for the construction of a Hudson river submarine tunnel. The general comment is that it is the biggest thing for New York that has happened since the completion of the Brooklyn bridge. It must be attended by results which cannot fail to attract domestic and foreign commerce to this port to an extent heretofore scarcely dreamed of. The estimated cost of the undertaking is set down at $11,000,000, and the time needed for its accomplishment is one year. The prospect of the disbursement of that amount of money among a little army of men who will have to do the work is also an important consideration with a numerous class of tradesmen who will be likely to reap the benefit of it.

SUIT AGAINST THE NORTHERN PACIFIC.

NEW YORK, May 26.—The Oregon & Transcontinental Railway Company to-day commenced suit in the United States circuit court against the Northern Pacific Company, to restrain the latter from issuing any bonds or providing any means for payment of interest on bonds issued for the construction of the Spokane & Palouse railroad. Plaintiffs claim that they own 130,000 shares of defendant's roads, and that the new road is being constructed with a view to defraud.

A SUIT AGAINST JAY GOULD.

NEW YORK, May 26.—Wm. A. Delaney, who represents in New York certain foreign bondholders of the Kansas Pacific railroad before it was gobbled up by Jay Gould, Russell Sage and others, said to-day that he would commence an action against those parties as soon as the necessary papers arrived from Amsterdam, Holland. The amount of the suit will be close on to $4,000,000. George Gould and Russell Sage to-day refused to speak on the matter.

CANADIAN PASSENGER RATES.

SAN FRANCISCO, May 26.—The Canadian Pacific road makes the following passenger rates from this city to Eastern points: New York and Boston $75, second-class $55, to Chicago $55 and $45 respectively, St. Louis $55 and $45, and to Cincinnati $60 and $47 50 respectively.

THE O. R. & N. BOOKS CLOSED.

NEW YORK, May 26.—The transfer books of the Oregon Railway & Navigation Company and of the Oregon Transcontinental Company closed yesterday afternoon, prior to the annual election, which will be held on June 20. Control of the stock remains in the hands of the Elijah Smith party, and the old board of directors and officers will probably be re-elected without opposition.

ST. LOUIS & SAN FRANCISCO.

NEW YORK, May 26.—The board of directors of the St. Louis & San Francisco railroad met to-day and re-elected the present officers.

### EASTERN NEWS ITEMS.

THE MILLERS' CONVENTION.

ST. LOUIS, May 26.—The Millers' National Association concluded its session in this city to-day. Louis Fusz, chairman of the committee on trade, presented three resolutions, which were adopted. The first resolution expressed it as the opinion of the convention that the merchant marine should be restored, by repeal of the navigation law, subsidizing shipbuilding, treaties with foreign nations, etc. The second resolution protested against the adoption of a heavy tax on flour by Brazil, while wheat is admitted free, and called the attention of the state department to the matter. Recommending also the appointment of a committee of three to consider the question. The third resolution protested against discrimination against flour in the interests of wheat by certain railroads. This was amended to include discrimination against sack flour in favor of barrel flour. It also recommended the appointment of a committee of three to consider the question of abolishing gambling in wheat options. This was discussed at length, and a committee of three was appointed to consider the matter.

A motion was adopted instructing state associations to urge the recommendations of the national association on state legislatures. Buffalo was chosen as the next place of meeting of the association.

The following officers were re-elected for the ensuing year: John Crosby, president; C. H. Seybt, vice-president; F. H. Merrill, second vice-president. The executive committee, elected by different states, consisted of the old members. Adjourned sine die.

The sum of $6000 was also appropriated to the use of the publication committee. Miles of New York, was elected president.

Luce, of Michigan, and staff were among the visitors.

### TURKEY.

PLOT TO ASSASSINATE THE SULTAN.

BUCHAREST, May 26.—A plot to assassinate the sultan of Turkey was discovered Thursday. Extraordinary precautions have been made to conceal the discovery. The effect of the plot on the sultan is visible in the terror he exhibits. He made the usual weekly visit to the mosque hurriedly instead of with the usual slow and pompous parade.

Allcock's Porous Plasters have stood the test of twenty-five years' use by the public. They have never been equaled by unscrupulous imitators who have sought to win a part of the reputation of Allcock's by making a plaster with holes in it, and they stand to-day indorsed by not only the highest medical authorities, but by thousands of grateful patients who have proved their efficacy as a household remedy.

# COMMERCIAL.

THURSDAY, May 26.

Str Willamette Valley reached San Francisco 23d inst. from Yaquina bay with 5102 sks wheat, 2070 sks oats, 300 sks barley, 60 cs eggs, 40 sks oysters, 5 tons scrap iron, 1 bl deerskins, 2 bls pelts, 1 bl calfskins, 22 bdls hides.

Overland receipts include 250 kegs nails, 210 rls barbed wire, 2 cars harvesting machinery, 2 cs 83 cads tobacco, 1 cs cigars, 1 bbl 8 cs candy, 5 bbls whisky, 18 pkgs dry goods, 4 cs boots and shoes, 9 cs hosiery, 50 cs sauce, 2 cs hams, 20 cs milk, 4 cs shoes.

PRODUCE RECEIPTS—Past twenty-four hours include 522 bbls flour, 1078 ctls oats, 378 ctls millstuff, 6 sks potatoes, 210 lbs hides, 12 cs butter, 67 cs eggs, 5 bxs apples, 11 cs dried fruit, 200 sheep, 20 cattle.

FREIGHTS—Another spot iron vessel, the Renfrewshire, closed for lumber to Valparaiso during the week, and this is the sum total of business in that time. A similar freight has been spoken of for spot wood, while negotiations have been on for an iron ship to load flour. The Renfrewshire is credited with having refused 26s 3d for grain loading later. Rates for next season loading, if at all established, are not spoken of, and it is certain that no material amount of chartering ahead has been done. San Francisco has reported a fair amount of new business, and one American is trying to make more money as a smallpox hospital than by carrying wheat at 20 shillings.

WHEAT—Receipts for the week 708 tons, something less than half of which came from the valley. Shipments to San Francisco rule very even and there is nothing in the movement that is of new interest. The local market has found nothing in the way of new business and the interior reports a quieter turn with old prices ruling. Millers east of the mountains are still quoted as paying 60 cents net per bushel and those of the valley 92@93c net as to location. Supplies are well out of first hands so that there is but a limited scope for operations. Here inactivity appears most prominent and the market is not closely quoted. Walla Walla is sold out in small lots at $1 40.

English and French cables have steadily reported strong markets the past week. In both countries the supply of home grown is light and interior markets have advanced where principal ones rested. This forcing influence will make itself felt without there comes more favorable growing weather. In the two countries spring has been backward and the weather very unfavorable for the most part. Last mail advices speak rather cheeringly but cables report unsettled weather again. The Liverpool spot market is in a dull state from neglect and heavy supplies but the cargoes market is strong. Pacific cargoes to the number of forty arrived out this month prior to Monday last, yet the number waiting at ports of call is now only three. This absorption is a good indication of strength. From this time on the number of arrivals from Pacific ports will gradually lessen, for clearances fell away sharply after January. Present shipments of Indian wheat are below those of a year ago, and the quantity afloat is almost 100,000 quarters less. Russian supplies are hardly mentioned in English reports. For the past week the quantity afloat for the United Kingdom shows a decrease of 100,000 quarters, imports in the same time equaling 230,000 quarters. New York values are some higher than a week ago, that market lately pursuing a quiet course. Chicago on Tuesday declined nearly two cents on some options, and there was lively trading near the close of the day. Later it has steadied, and closes strongest for late options. San Francisco has been a very quiet market for the most part. Quite an export movement is now on, and season contracts are being settled.

### MARKETS BY TELEGRAPH.

NEW YORK STOCK MARKET.

NEW YORK, May 26.—The stock market was again dull to-day, with narrow fluctuations in the general list. The increase in business was due almost entirely to renewed speculation in Reading. The dividend-paying stocks were left in the background, and an interest in the market was monopolized by a few specialties. Dealings in Reading were due to expectation that the next statement will show a handsome increase in earnings. St. Paul & Duluth again advanced sharply. Among the lower stocks Denver & Rio Grande and San Francisco were notable for strength. Almost everything is higher to-night, with St. Paul & Duluth up 3½. Alton and Terre Haute 1½, Manitoba, Reading and Denver, preferred, 1½ per cent. each. Fort Worth & Denver is down ¾ per cent.

Government bonds were dull and steady.

Mining stocks were without feature. Following are the closing prices bid: Alice $1 35, Amador $2 05, Brunswick $1 35, Deadwood $1 85, El Cristo 50c, Santiago $4, Stanislaus $2 15, Security $7, Sutro Tunnel 25c.

Family Troubles
—ASK FOR—
ROUGH ON RATS.

The supper was laid on the table trim
When out comes, roaring, my young son, Jim,
"Oh daddy, the rats! A dozen or two,
Are gobbling the supper, and baby too."
My wife, with a scream, seized iron and broom,
I clutched a bottle, and made for the room.
Never was heard such a hullabaloo!
It woke up the cat, and the terrier, too.
The terrier thought we were hunting the cat,
Got a grip of her tail, as she went for the rat.
Jim, with his hatchet, tumbled over a pail,
And tried to hold terrier back by the tail,
I caught Jim by the wool, but rather too late—
The table received such a bump from his pate
That teapot, plates, lamp, chairs, baby and all,
Were upset on the floor, 'mid crush and squall.
The people about shouted "Murder! Fire!"
And the police rushed in the cause to inquire
They'd listen to nothing, we wanted to state,
But to the next station lugged me off straight
Swore I was drunk—nearly murdered my wife,
And of my poor infant endangered the life,
[illegible] chairs, and the crockery ware;
[illegible] but a savage old bear,"
[illegible] my poor wife did swear,
[illegible] fined, I cursed my sad fate,
[illegible] rather too late,
[illegible] on traps, dogs or cats,
[illegible] was "Rough on Rats."

Cancer, Scrofula, Eczema, Blood Poison Malaria, Ulcers, And all Diseases Caused from Impure Blood

Cancer of the Tongue.

My wife, some three or four years ago, was troubled with an ulcer on the side of her tongue near the throat. The pain was incessant, causing loss of sleep and producing great nervous prostration. Accompanying this trouble was rheumatism. It had passed from the shoulders and centered in the end of one hand, she almost losing the use of it. Between the suffering of the two, life had grown burdensome. By the use of a half dozen small-sized bottles of Swift's Specific, she was entirely relieved and restored to health. This was three years ago, and there has been no return of the disease.

DR. JOHN BULL'S SMITH'S TONIC SYRUP FOR THE CURE OF FEVER and AGUE Or CHILLS and FEVER, AND ALL MALARIAL DISEASES.

The proprietor of this celebrated medicine justly claims for it a superiority over all remedies ever offered to the public for the SAFE, CERTAIN, SPEEDY and PERMANENT cure of Ague and Fever or Chills and Fever, whether of short or long standing. He refers to the entire Western and Southern country to bear him testimony to the truth of the assertion that in no case whatever will it fail to cure if the directions are strictly followed and carried out. In a great many cases a single dose has been sufficient for a cure, and whole families have been cured by a single bottle, with a perfect restoration of the general health. It is, however, prudent, and in every case more certain to cure, if its use is continued in smaller doses for a week or two after the disease has been checked, more especially in difficult and long-standing cases. Usually this medicine will not require any aid to keep the bowels in good order. Should the patient, however, require a cathartic medicine, after having taken three or four doses of the Tonic, a single dose of KENT'S VEGETABLE FAMILY PILLS will be sufficient.
